## ABOUT ME

A recent graduate with foundational knowledge of the MERN stack, Java, and front-end development. Eager to start my career as a software developer, learn from experienced professionals, and contribute to exciting projects while building my skills in software engineering.

## EDUCATION

- Tkr collage of engineering and technology**  
Electronics and Communication Engineering  
2020 - 2024  
Grade - 73%  
Hyderabad
- Pragathi junior collage**  
Board of intermediate education  
2018 - 2020  
Grade - 94.9  
Nalgonda
- Spr high school**  
- 2018  
Grade - 91  
Narketpally

## PROJECTS

- Arduino-android Smart Farming Aid**  
Developed a smart farming aid to improve agricultural practices. • Implemented sensors for real-time monitoring of soil moisture, temperature, and humidity. • Enabled automated irrigation control to enhance resource efficiency and crop yield. • Created a user-friendly Android app for easy monitoring and management
- XpressFoods Food Ordering Website**  
Technologies: MERN Stack (MongoDB, Express, React, Node.js) • Developed a full-stack food ordering application. • Implemented user authentication, data validation, and API calls to fetch and manage data. • Enhanced user experience with responsive design and efficient data handling. PROJECT LIVE LINK:-<https://roaring-kataifi-4eb213.netlify.app/>
- Personal portfolio website using reactJs**

Designed the UI and implemented CSS styling for the website, optimizing performance and design across all pages. LiveLink:--
